QUANTRELL IS LIVING

Was Notorious Gorilla Leader During Civil War.

NOW IN BRITISH COLUMBIA.

Quantrell Was Reported To Have Died of Wounds In a Kentucky Hospital After His Raiders Had Been Cut Up.

Victoria, B. C., Aug. 10.—Bill Quantrell, leader of Quantrell's guerrillas in the civil war, who, according to the story, died of wounds in a Kentucky hospital after his raiders were cut up, is alive and lives at Quatsino, on the northwest coast of Vancouver island, under the name of John Sharp, according to a number of people who have conversed with him.

J. F. Duffy, a prominent timber man, who recently became interested in timber land at Quatsino, recognized John Sharp, who is over 70 years of age, wiry and gray, as Quantrell. Duffy, having been a member of the Michigan troops of cavalry which cut up Quantrell's force. He stated to Duffy that he was correct in his recognition.

Sharp said he had been left as dead, but instead, had taken a horse, ridden many miles and disappeared. He worked his way to South America, living a number of years in Chile, whence he went to Texas, where he engaged in the cattle business, making considerable which he exhausted. He to Oregon, where drove cattle over From Oregon he came to British Columbia nearly two decades a and engaged in logging at different camps on the northeast coast of Vancouver island, until ten years ago, when he became a trapper of the northern coast.

Recognized by Duffy.

Six or seven years ago he went to Quatsino where he was made car carrier at West Conover mines. When J. E. Duffy landed at Quatsino from the steamer Tees, he met John Sharp on the beach at Coal Harbor. Duffy looked the old man over and said:

"Is that you Quantrell; you old rascal?"

"Come into the house," said Sharp, and for some hours the two men talked, Sharp stating he was in reality Quantrell and he talked at length of the raids in Kansas and elsewhere and eagerly listened to Duffy's tales from the point of view of the cavalrymen in the Union army. He was most interested inthe story of the cutting up of his band, and when his narrator told of how forty men had been killed, tears are said to have rained down the old man's cheeks. R. E. Montgomery, who is engaged in business at Quatsino and who knew Sharp, or Quantrell at Ft. Worth, Tex., and H. . Berg, postmaster at Quatsino, are two others to whom Mr. Sharp has stated his identity as the man Quantrell.

"I might as well admit it," Sharp told both. "It seems that I can not hide the fact."

Tells of His Escape.

The story the old man told the informant of the Associated Press was that when the band had been cut up he had been bayonetted in the chest and had a bullet wound through the shoulder. The surgeon who looked over him diagnosed that he could not live more than a couple of hours, and he had been left so that others with more chance of living could be attended by the overworked surgeons. While they tended the others, he got up, despite his wounds, and disappeared.

That night, he said, he rode 70 miles. He took flight to South America, and after raising cattle in Texas, ranching in Oregon and logging in British Columbia, he engaged in trapping, and six or seven years ago reached Quatsino. There he found employment and has since remained, known only as "Old John Sharp."

GUNNERS MAKE RECORDS.

America Has No Reason to Fear Comparison with Other Navies.

Washington, Aug. 10.—While [illegible] has not created it as [illegible] to [illegible] with the performances of American naval gunners. It was felt that the publication of a good record made by our men would only serve to stimulate the gunners of other nations to better their own performances, which in turn would require additional effort on the part of American gunners to maintain their superiority.

But the publication recently of the fact that during target practice on the British cruiser fleet in the presence of King Edward, one gun made 19 hits in 21 shots, thereby earning a decoration from the king, has naturally touched the pride of some of the American naval officers. They have looked into the records of the American gun pointers during the annual target practice just closed, and have found no reason to fear a comparison with the gunners of any other navy.

Taking one of the six-inch guns in the Atlantic fleet, one gunner on the armored cruiser Maryland made 11 hits and eleven shots in one minute, 10.1 per minute. A six-inch gun with a perfect score at the rate of 10 shots per minutes. A six-inch gun on the battleship Maine, has a record of perfect score at the rate of 10 41 per minutes, and the battleship Missouri's best record was 10.30 shots pere minute, each lodged in a target.

$45,000,000 INVESTED.

Gary, Ind., May Be the Steel Capital of the World.

Chicago, Aug. 10.—Satisfied that Gary, Ind., will be the steel capital of the world, the directors of the United States Steel corporation have decided to invest an additional $45,000,000 in the construction of the Model City and steel plant just across the Indiana state line from Chicago, according to a report received at Gary..

The $45,000,000 is in addition to the original appropriation of $75,000,000 estimated as the necessary outlay of the building of the plant and the formation of the city will house the score of thousands of workers who will be employed at Gary to operate the steel mills.

The excess appropriations are to be used in widening the scope and extent of the steel plant proposed. The workmen began on June 16, 1906, to convert the sand dunes of Lake Michigan near the mouth of the Little Calumet river into a city to accommodate a population of 50,000 persons. Already Broadway, the principal business street, has been constructed for three miles, and other work has been accomplished in proportion. Many municipal works are planned on the requirements of a city of 500,000 souls.

Engineer Was Almost Lynched.

Henderson, Ky., Aug. 10.—The parents of Patrick Haffey, a locomotive negineer, of this city, have received word that he is in prison at Jiminez, Mexico. Haffey was arrested because his native fireman fell off a train and was killed. Bitter feeling against Americans caused a mob to form and the young man was almost lynched. The American ambassador was appealed to.

Tribes Raid a Town.

Tangier, Aug. 10.—The town of Cape Juby, on the west coast of Africa, has been attacked and raided by the Aitayusa and Aitdjemal tribes. A number of the garrison were killed and the remainder were made prisoners. The governor escaped in a boat to the fort on Fuerteventura isle, opposite Cape Juby. The rebel tribesmen completely looted Cape Juby.

Horesmen Attacked Camp.

Paris, Aug. 10—A message received here Friday from Admiral Philibert off Casa Blanca, Morocco, probably forwarded from his flagship by wireless telegraphy and dated at 2 o'clock Thursday afternoon, says that General Drude's camp, outside of Casa Blanca, was attacked by five or six thousand horsemen, who were vigorously beaten off."

WRECK ON W. & A.

Four Killed, Three Injured In a Head-on Collision.

OCCURRED NEAR DALTON, GA.

Two Freight Trains, North and South Bound, Come Together with Disastrous Results a Short Distance Out of Town.

Dalton, Ga., Aug. 10—Four are dead and three are seriously injured as a result of a head-on collision between two freight trains of the W. & A. railroad, the wreck occurring one mile north of the city Thursday afternoon. The dead are:

J. L. Heggie, engineer on the southbound train, and his fireman, Jean Roach; C. F. Colbert, head brakeman on the northbound train, and Tom Bartenfield, a brakeman on the southbound train.

The wounded are J. B. Killebrew, engineer on the northbound train, seriously; Dilbeck and Cooper, two brakemen.

Fireman Suddeth, on extra north, saw the oncoming train and jumped. He escaped without a scratch.

Mr. J. L. Heggie, the engineer, who was killed, lived in Tunnelhill. He has been on the road for a long time, and was one of the most reliable employees. When dug from under the pile of rubbish his body was found mashed beyond recognition. The body of Roach was held down by the trucks from under one of the cars. His body was also terribly mashed. Bartenfield's and Colbert's bodies wer eburied under cars.

Roach and Bartenfield were both residents of Dalton, Ga.

J. B. Killebrew, the engineer, who was seriously injured in the head and body, is a resident of Atlanta. His injuries are dangerous, but the physicians say that he has a fairly good chance to recover. Cooper, the other injured brakeman, is also a citizen of Atlanta.

The wreck occurred within a few hundred yards of the spot where a passenger train was wrecked about eight months ago. It was in this wreck that one man was killed and Charlie Parrett, the well known Atlanta engineer, was seriously injured.

The wreck is said to have occurred on account of misunderstanding of orders.

WILLAMS WINS.

Mississippi Congressman Formally Declared Nominee.

Jackson, Miss., Aug. 10.—The democratic state committee met at noon Thursday and declared Congressman John Sharp Williams as the party nominee for the United States senate on the canvass of the returns which showed a majority of 648 votes for Williams, the totals being as follows: Williams, 59,496; Vardaman, 58,848.

There will be no contest over the result.

To Pay Death Penalty.

Cuthbert, Ga., Aug. 10—Will Price the negro who was convicted for criminal assault upon a waite girl by the name of Burk in the southeastern part of the county and sentenced to hang on the 15th of this month, is beginning to realize the near approach of his death upon the gallows and is spending much of his time in singing and incessant prayer. In one week he is to pay the death penalty for the crime of which he was convicted.

Operators Desert Keys.

Los Angeles, Cal., Aug. 10—All operators employed in the Los Angeles office of the Western Union Telegraph company walked out Wednesday afternoon. It is stated but one remained at the operating department. There was no previous intimation of a strike.

Grain Elevator Burned.

Baltimore, Md., Aug. 10—The Baltimore and Ohio grain elevator, standing at the corner of Henrietta and Howard streets, was burned on Thursday morning with its contents. The loss may reach $200,000.

EXPORT TRADE.

South Shows Steady Increase in the Foreign Shipments.

Baltimore, Md., Aug. 10.—In its issue this week of the Manufacturers' Record says:

"Official figures of the past fiscal year emphasize the steady increase in the importance of the south in America's export trade. The total value of the exports of merchandise from southern ports was $734,073,462 an increase of $92,040,699, or 14.3 per cent over the preceding year, while the increase at all other ports in the country was but $44,787,498, or at the rate of 4 per cent.

"Satisfactory as is the total for the southern ports, as, for instance, the fact that the increase at gulf ports was $1,000,359,321, while at the North Atlantic ports was but $32,142,611, of which the gain at New York alone was $20,821,735, there are other facts worthy of earnest consideration by everybody interested in southern commerce. Of the 85 ports in the country with records either for 1906 or 1907, losses are shown at 24, and of these legnt are southern ports, and of the eight ports six are south Atlantic ports. This would indicate that the splendid gain made at certain gulf ports may be at the expense not only of those on the North Atlantic coast, but also of those on the South Atlatic. Then, too, the total value of exports at the twenty-six southern ports is but $106,091,413 greater than the value of exports from New York. That city led the country in the past fiscal year with a total of $627,982,019, Galveston being second with $237,117,921; New Orleans third with $170,762,428; Baltimore fourth with $104,808,952; Boston fifth with $100,872,747, and Philadelphia sixth with $94,832,480.

"Cotton and its products represented more than $548,000,000 in the total exports from the country."

CONTRARY TO HIS FAITH.

Christian Science Publisher Resorts to the Aid of Physicians.

Chicago, Aug. 10.—A Tribune dispatch from Boston says:

Search for Joseph Armstrong, a prominent Christian scientist of Boston, who is wanted to testify in connection with the taking of the depositions in the litigation against Mrs. Eddy, ended in the discovery that Armstrong is ill at his residence, 387 Commonwealth avenue.

Contrary to the fundamental principles of the faith, he has been for six weeks under treatment of medical doctors for an attack of pleurisy.

Armstrong was manager of the Christian Science Journal and publisher of all the Christian Science literature. He has been absent from his duties for weeks and it will be some time before he returns to them.

Maryland Democratic Ticket.

Baltimore, Md., Aug. 10.—At an adjourned meeting the democratic convention nominated Austin L. Crothers, of Cecil county, for governor; Joshua N. Hering, of Carroll county, for comptroller; Isaac Lobe Straus, of Baltimore city, for attorney general, and C. C. Magruder, of Prince George county, for clerk of the court of appeals. The platform adopted declared against illiterate negro suffrage. The convention adopted resolutions declaring in favor of the nomination of the United States senator by the people in primary election and that the governor of the state shall not be eligible for any other office during his term as governor.

Will Sail for Europe.

Newburyport, Mass., Aug. 10.—Mrs. Katherine A. Tingley, head of the Theosophist movement, will sail Saturday for an extended trip abroad after coming to Newburyport, her native city to look for a site for a series of schools which will be duplicates of the institution at Port Loma, California.

Fatal Fire at Santiago.

Santiago, Chile, Aug. 10—A large brewery has been consumed by fire with considerable loss of life. Carbonic acid pipes exploded, killing or wounding forty persons, among them being firemen, policemen and spectators.

CALLS A CONFERENCE

Important Meeting to Be Held in Nashville, Tenn.

OCTOBER 14 IS DATE FIXED

Governor Patterson Has Issued a Call to Textile Manufacturers and Labor Representatives to Meet in the Tennessee Capital.

Nashville, Aug. 10—Governor Patterson has issued a call for a conference of textile manufacturers and labor representatives to be held in the city of Nashville on Oct. 14. The call is as follows:

"By virture of the authority in me vested by a joint resolution of the Tennessee legislature, approved and signed March 11, 1907, I hereby call a meeting and conference of the representatives of all textile manufacturing interests and the representatives of all labor organiations and others what are known as the cotton states, to meet in the city of Nashville on October 14, 1907, there to consider the question of child and female labor in shops and factories wwith a view of adopting uniform laws that will be agreeable and just to the respective parties in interest.

"The importance of this meeting is self-evident. In the uplift and revolution of civilized nations, the care and protection of women and children are questions that have become paramount. The ablest statesmen, publicists, philanthropists and thinking people generally, are addressing themselves assiduously to an adjustment of these matters, and I urge upon all textile interests, and especially upon all labor organizations, to choose and send delegates of conservatism, probity, ability and discretion, who will meet and give serious thought to the questions mentioned and take such action as may commend itself to their good judgment."

SPORTING WORLD AGOG.

Another Big Pugilistic Scandal Reported from Los Angeles.

Los Angeles, Cal., Aug. 10.—The Los Angeles sporting world is agog over another big pugilistic scandal, rivaling the O'Brien and Burns fiasco of some months ago. It is in connection of the calling off Thursday of the ten-round go between Joe Gans, lightweight champion, and Jimmie Britt, scheduled to take place before the Pacific Athletic club on Aug. 16.

Prominent San Francisco sporting men and representatives of the alleged "fight trust" are involved and are charged with having ordered large sums of money to break up the match. The reason for this was that it interfered in various ways with the Britt-Gans match scheduled to take place early in September.

Chicago Police Probing Mystery.

Chicago, Aug. 10.—The police are investiating the death of Hugo Pesolt, a wealthy fish merchant, whose body was found lying on the embankment of the Chicago and Northwestern tracks with a bullet wound through the heart. An hour previous to the finding of the body fire had been discovered in the basement of Pesolt's home. The police are working on the theory that Pesolt was shot by burglars who, after attempting to rob the place, had set fire to the house.

Articles Signed for Pugilistic Fight.

San Francisco, Aug. 10—Representatives of Jimmy Britt and Joe Gans Thursday night signed articles for the appearance of two lightweights before Gleason's Occidental club in this city on Sept. 9. Manager Gleason signed on behalf of the club. He agrees to give 75 per cent of the receipts with a guarantee of $25,000.

Infantry Massacred by Rebels.

Batavia, Island of Java, Aug. 10—A detachment of infantry, commanded by two lieutenants, has been massacred by rebels in the Mori district of the island of Celebes. The victims, including some convicts, numbers forty-five.

THE PEOPLE WILL BE THE SUFFERERS

By The Fine Imposed Upon The Standard Oil Company.

FIVE CENTS INCREASE IN PRICE

Of Oil Would Enable Trust to Continue Dividends and Pay the Enormous Fine—How Standard Oil is Protected by Provision in Tariff Law.

(Special Correspondence.)

Washington, D. C., August 10.—After the spectacular effect of finding the Standard Oil Trust nearly thirty millions of dollars has subsided it may be well to investigate what advantage the public will gain even if the trust eventually has to pay the full amount. Mr. D. Rockefeller is reported to have said that "Judge Landis will be dead a long while before this fine is paid. In fact, many things will happen before that." But suppose the Standard magnate is not a good prophet and in the course of a year the circuit and supreme courts decide that the enormous fine is legal and must be paid? Where will the money come from? Not from the profits on oil, for it is quite probable that a cent and a half a gallon will be charged to pay the fine, so that the trust's stockholders will still be paid their 40 per cent dividend.

The object of trust-busting is to restore competition which the trusts have nearly eliminated. Competition brings down the price of products to a normal level according to supply and demand, while trusts through their agents on artificial price. The trusts for receiving rebates, like the Standard Oil case, will not reduce prices, but if our trust-busting friends really mean business when Congress meets, will positively produce competition in many products by abolishing the tariff which protects them. The Republican leaders have been constantly pointing out to those not conversant with the tariff law that all petroleum products are on the free list. That is true. But at the same time they know, or should know, that there is a reciprocity joker in the tariff law which they all voted for, which absolutely protects the Standard Oil Trust from competition from abroad. This proviso, which is part of paragraph 626, which places "petroleum, crude or refined," on the free list, also stipulates that on petroleum, or its products "produced in any foreign country," there shall be collected, when such goods are imported, a duty equal to the duty imposed by such country. As Russia and other important oil-producing countries levy duties on kerosene averaging about two cents it follows that the Standard Oil Company is one of our most highly protected trusts. The customs officials hold that the rates of duty to be assessed are not those levied by the country from which the refined products may be imported, but those levied by the country which produces the petroleum from which the imported products were made.

That the trust is enormously protected by this duty provision is evident from the difference in price as quoted in The New York Journal of Commerce, August 5th, the export price in bulk being 5 cents a gallon, while the local price for tank wagon delivery was 10 cents a gallon. So under this benificent Republican tariff the foreigner is buying his kerosene at bargain prices, or about half what our trust-ridden people are forced to pay through the collusion of the Republican leaders and the trust monopolists.

About every prominent Democrat from the South that drops into Washington these days is anxious to see a Southern man named by the Democrats for President, providing the delegates to the national convention from the close and doubtful States are satisfied that such a candidate would best unite the party.

Strike May Not Spread.

New York, Aug. 10.—The strike of the telegraph operators in Chicago is regarded by the company as local in its nature and not likely to precipitate a strike here. The walk out of the telegraphers in Chicago has hampered the transmission of business both here and in Chicago, but wire chiefs and other operators are doing all they can to relieve the tie-up.

CAUGHT A BIG SHARK.

Orlando Fisherman Landed a Sea Monster at Daytona Beach.

Considerable excitement prevailed at Daytona Beach on Thursday, according to a private letter to relatives from parties who are sojourning at that popular seaside resort, by the landing of an immense shark, which measured eight feet and two inches.

This shark was caught by an Orlando fisherman, although the name of the gentleman could not be learned. It was landed from the head of Keating's pier, within a hundred yards of where a number of people were bathing, and it is needless to add how quickly the surf was deserted.

The shark have been frequenting the waters in the vicinity of Daytona Beach, it is said, for several days, two or three having been captured. There is no danger from the bathing, however, as the shark do not come near the shore. However, that does not prevent others than the more venturesome bathers to go too far out into the surf.

Chamberlain's Colic, Cholera and Diarrhoea Remedy, Better Than Three Doctors.

"Three years ago we had three doctors with our little boy and everything that they could do seemed in vain. HIGH SPRINGS BOYS WERE RELEASED

Charged With Selling Liquor In Violation Of Law.

CASE WAS A BIG SENSATION

Were Arrested at Instigation of Three Ministers, and Quantity of Liquor Was Found, But Proved That It Was a "Joint Order."

Louie H. Bartlett and J. W. Williams of High Springs who were arrested several days ago because they had in their possession more intoxicating liquors than the law allowed, were arraigned in the city court at High Springs Friday upon a charge of selling liquor without a license.

The case attracted a great deal of attention, as the parties are well known. The arrest was caused by three ministers, who preferred the charges, and the little court-room at High Springs was filled beyond overflow, not more than half of those who desired to hear the proceedings being enabled to gain admission to the room.

After hearing the evidence in the case, in which the defendants stated that a number of friends had joined in making an order for a picnic and barbecue to be given at High Springs, and that they had intended to use the beer and whiskey merely between themselves and their friends, Mayor Knight decided to release the defendants, as the court held that there had been no evidence introduced tending to show that they, or either of them, had been attempting to sell any part of the beverage.

These cases have created a great deal of interest, and the decision was awaited with anxiety by parties on both sides.

It is understood, however, that the beverage, which consisted of several barrels of beer and a quantity of whiskey, and which was confiscated by the county authorities, is held "in abeyance," but will be allowed to thoroughly enjoy themselves as had anticipated after all.

Attorney Christopher Matheson represented the prosecution in the case while Attorney B. A. Thrasher appeared for the defense.

NEWS OF CITY AND COUNTY CONDENSED

Mrs. Alfred Harrod has gone to Williston, where she will spend a few days as a guest of her mother, Mrs. Reddick.

J. W. McCann and A. G. Hill of LaCrosse, J. G. Sherhouse of Campville, W. F. Gay of Arredondo and Frank Ellis of Bland were visitors to the county capital yesterday.

Attention is called to the change of advertisement of Phifer Bros., bankers, which appears elsewhere in this issue. This firm desires to impress upon the minds of the public that they are not conducting strictly a savings bank business, but a general banking system is in vogue, and they have the facilities for taking care of all lines and classes of banking.

Among the visitors to Gainesville is Robt. J. Holly, formerly with The Elevator, but now manager of The Orlando Reporter-Star. Bob is making an excellent paper for Orlando, which seems to be highly appreciated not only by the good people of that city, but by the Florida press, judging from the way in which the paper is quoted. His friends here congratulate him upon his excellent success, and we congratulate our Orlando neighbors in having secured his services.

The usual services will be held at Holy Trinity Episcopal Church, Rev. F. H. Craighill.

RIFLE TEAM IS HOME.

Made Excellent Record in State Shoot at St. Augustine.

The rifle team of the Gainesville Guards returned Saturday from St. Augustine, where they have been participating in the State shoot.

The team won several honors, taking fourth place, as has already been noted in The Sun.

Captain J. W. Blanding and Private C. Pinkoson will go to the National shoot on the regular Florida team, while W. J. Holly and Wm. Gibbs will take position on the same shooters with the sharp shooters.

The shoot will be held at Fort Perry, Ohio, the latter part of September.

A Silver Tea.

A silver tea will be given by the Baptist Young People's Union at the home of Mr. and Mrs. J. R. Emerson Tuesday evening. The proceeds will be devoted to the benefit of the beloved pastor, and the Union asks a liberal attendance and patronage for this worthy cause.

THE SUMMER NORMAL.

The Most Successful that State Ever Held—High Averages.

The Summer Normal came to a close Friday, completing the most successful session in the history of the school.

The devotional exercises were conducted by Dr. Yocum. His prayer was like the pleadings of a loving father for his children.

The school sang as the closing song, "God Be With You Till We Meet Again." Then parting words by Dr. Yocum, Prof. Corr, Capt. McBeath, Dr. Russell and Capt. Lynch.

The routine work of the closing day was taken up, and as each teacher dismissed his last recitation, there were individual good-byes.

Prof. Holloway states that he has never employed a faculty that has given more earnest labor, nor better results. Of the examinees, the highest marks ever made in the State attest the thoroughness of the work done.

Mrs. F. N. Clayton of Tampa broke the State record, making a general average of 99.7. Miss Alys May Corr, a former Gainesville girl, stands second in the Gainesville examination. She has the distinction of breaking the record on the sciences, and of being the record person in all the State who ever made 100 on English literature.

Miss Elizabeth Blanding is receiving the congratulations of her freinds for her magnificent work in her examination for her special work.

In the State primary department, Mrs. Hamilton surpassed herself. The examination in this department was most thorough and searching. The few failures in this department were due to a misapprehension on the part of a few of the applicants. But the work done by those applicants is not lost.

Prof. Holloway left at 2:30 Saturday for Tallahassee.

Marriage at Island Grove.

Mr. and Mrs. S. B. Gaskin have returned from Island Grove, where on Wednesday evening they attended the marriage of the latter's sister, Miss Bessie Baker, daughter of Mr. and Mrs. F. T. Baker, to E. Simmons.

The marriage, which occurred in the Baptist church, was one of the most largely attended ever known in that section, friends congregating from every direction.

A wedding supper followed the ceremony. This function was given at the home of the bride's parents, and consisted of everything good to eat.

Mr. and Mrs. Simmons left on the night train for Sparr, where Mr. Simmons is engaged in the mercantile business.

The contracting parties are popular young people, and their numerous friends wish them much happiness in their married life.

A Peculiar Occurrence.

One of the most peculiar occurrences of nature noticeable in this section is the fact that a swarm of bees have assembled under an electric light transformer in East Gainesville, and for the past week have been masters of the situation. They are holding the fort in great shape, and none of the workmen dare ascend the pole, notwithstanding that the transformer needs attention, and the neighboring light consumers who must depend upon this particular transformer are as anxious for the bees to "skiddoo" as the men who are held responsible for its repair.

But the bees are still there in defiance, and the man has not yet been found who has the nerve to "interview" the bunch. They denounce the interference of the bees as a "stinging" outrage.

A Future Educator.

Florida has a future educator who, if he "takes after" his father, is bound to make the world better and brighter along these lines.

Captain Geo. M. Lynch received a telegram Friday evening which swelled up his whole form with joy, as the wire announced the arrival of a fine boy at his home in Jasper.

Captain Lynch, who has been a member of the faculty of the State Normal here, did not intend returning home until Saturday, but he had twenty minutes' time when the message was received, packed his trunk and boarded the train for Jasper.

Friends in this city and throughout the State extend heartiest congratulations to the proud parents.

Of Interest to Teachers.

County Superintendent Dr. J. L. Kelley requests The Sun to make a correction in the article which appeared in this paper on Friday morning regarding the County Normal and examinations.

The Sun announced that all applicants to the Normal should bring a dollar, pen, ink and paper. This did not apply to the Normal, but to the examinations, which begin September 3. We trust that those interested will understand the matter clearly.

LETTER TO J. D. STRINGFELLOW, Gainesville, Fla.

Dear Sir: What will it cost to sow ten acres half wheat and half daisy mixed? and what'll the crop be worth?

We don't know what daisy-seed costs, nor how bulky it is; we suspect half wheat and half daisy would make a big crop of daisies, and last a long time; the wheat might be short.

The parable throws some light on the cost of a paint half whitewash. Whitewash, mixed half-and-half with paint, is all-paint in look and feel; indeed nine-tenths of the "paint" in the stores is part whitewash: some half, some more, some less.

Paint has to be spread with the brush, the surface prepared, the ladders, scaffolds, pulleys and ropes arranged and moved, there's a great deal of labor in putting paint on; it costs $2 to $4 a gallon to do it.

What does it cost to paint whitewash? Just the same. Half-whitewash? Just the same. It doesn't seem worth while, for the whitewash does harm, not good.

Will the paint hold the whitewash fast? or the whitewash loosen the paint?

Better paint pure paint, the least-gallon paint, the least-money paint.

Devoe. Yours truly,

31 F. W. DEVOE & CO.

THE DAILY SUN,
Gainesville, Fla.

The Georgia anti-trust law is now declared to be "unworkable." There seems to be no way for the Republicans to make a trust unworkable.

Some men have trusts, because the object of every trust is to corner, and thereby extort unreasonable profits from the consumers of its goods. One might as well call cheap thieves as good trusts.

There is nothing strange about them; they are just like other men. They think just like other men, only more keenly; they suffer as we do, only more keenly; they love as we do, only more so.

The first thought of that Georgia editor to put lawyers and politicians in the chain gang, like a charm, and the lawyers are wondering why he suggested it as a mode of punishment.

Governor Folk Adams' announcement that he will not be a candidate for United States Senator in the primaries this year has caused the State press here to unanimously demand that Governor Adams should be his own successor. There is no doubt about it. He is the right man in the right place.

Senator Tillman has conceded the election of United States Senator Williams, of Mississippi, to Hon. John Sharp Williams, having a bare majority in a total vote of nearly 200, Williams ran far ahead of Vardaman in the cities and towns, but the "hayseed" lined up in almost solid column for the Governor, who voted Tillman.

The commissioners of Putnam county ordered an election to be held November 12th for the purpose of voting whether the sale of intoxicating liquors shall be licensed after that date. The fight will be one of the most hotly contested in the history of the State, but the victory is bound to be on the side of the prohibitionists, as they can show by actual demonstration since the last election that the question that prohibiting the sale of liquor in Palatka will advance rather than retard every interest of the town. Russell & Vickers, editors of The Palatka News, have declared on the side of the prohibitionists.

Three or four negro preachers, elders in the denomination, we could not say positively which, were discussing the intellect of one Elder Jenkins on a crowded S. A. L. train last Friday afternoon. It appeared from the conversation overheard by ye editor that this particular "gentlemen of the cloth" represented the great influence of Elder Jenkins, and one of them, who was not so well dressed as the rest, asked: "What is to be did wid a man when he 'tains too much influence?" "Remove him! Remove him! Just as they did Jesus Christ," chimed the others in chorus, to which a colored deaconess said "Amen."

THE FEDERAL STAMP TAX.

The Atlanta Constitution says that recently the suggestion has been made by ardent supporters of the State prohibition bill that the next step to insure the enforcement of the law would be the passage by Congress of a bill to forbid the issuance of a "Federal license to sell liquor in any dry counties or States."

Instead of acting as a deterrent on the illegal sale of liquor, such a national law would, on the contrary, very greatly increase the evil complained of and make harder the work of the State officers in detecting the offenders.

It is hardly possible that one thoroughly conversant with this subject would advocate the prohibition of the plan on which the Government is now proceeding in breaking up the illicit sale and manufacture of liquor. By this plan there are now two barrels loaded and ready to fire on that furtive and timid beast known popularly as a "blind tiger."

There are two avenues by which the law can approach and break up this illicit business. Along one the United States revenue officers travel, and these men are feared by the tigers more than by any other. From another direction the State and municipal officers bear down on the illegal seller. He is thus kept between the upper and the nether millstone. The revenue officer is usually a stranger in the locality, is uninfluenced by local relationships, acquaintances or interests. His continuance in office does not depend upon the favor of the people among whom he works. He can prosecute the violators of the law without danger of having them turn against him in the next election.

Under a recent act of Congress the lists of holders of Federal tax stamps are publicly published. They are available for inspection by anyone who cares to see them. The State's officers can secure the names of people to whom stamps have been issued, and by comparison with the list of those holding State and municipal licenses be able to identify the illegal sellers.

The tax imposed by the Government upon the man who wishes to engage in the sale of liquor is not a license for him to prosecute this business. The question of issuing or withholding a license is left to the State. Invariably the man who is selling liquor without a license pays the Government tax of $25 to escape prosecution from this source. The payment of this tax presupposes the fact that he wants to engage in the sale of liquor, and many courts have so held, putting the burden upon the accused of proving that such was not his intention.

Federal tax stamps will be issued in Georgia after January 1 to legal and illegal sellers of liquor. Drug stores which keep on hand pure alcohol for medicinal purposes, allowed under the State prohibition law, will pay the Federal tax. Illegal sellers will not be inclined to do so, since their names could then be secured by officers of the State and plans be laid to break up their business. The United States revenue officers will continue their vigilant prosecution of offenders and will thus cooperate with the State.

Instead of favoring the bill, therefore, the prohibitionists who understand it will very actively oppose the measure, as making harder the enforcement of the law against the manufacture and sale of liquor in this State.

Truly the poor man may be happy, but we are still ready to share the miseries of the rich.—Atlanta Constitution.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

CURE FOR SNAKE BITE.

New cures for snake bite are always in order and nowhere more so than in Florida, where the aboriginal rattlesnake still maintains his habitat and continues his pernicious activity as an offensive partisan and an undesirable citizen. From Denver in the far West, where rattlers are also numerous, comes the voice of Dr. J. H. Phelps, a reputable physician, who says:

"Tincture of iodine injected into the veins near the bite will stop the poison spreading to the rest of the system, and will cure the victim without discomfort to him. I have tried iodine on man and animal ever since I graduated from college, more years ago than I like to remember now, and it has never failed me. It is efficient not only in the case of rattlesnake bite, but also in case of moccasin snakes, tarantulas, scorpions and other reptiles of that nature. No man should die of snake bite in these days, when such a simple remedy is at hand."

A DEMOCRAT OF RENOWN.

The nomination at the primaries in Mississippi of Hon. John Sharp Williams as the candidate for United States Senator shows that the Democrats of Mississippi appreciate one of the most able, honest and industrious public servants that either party can boast of. Those of us who have the good fortune to come in contact with him in his position as the Democratic leader of the House of Representatives can only hope that his successor in that position will as ably advocate Democratic issues and so completely confound Republican fallacies as he has done. In the more sedate Senate he will be a light to lighten the Republican gentiles by his great learning and ability to impart his knowledge in good, strong English, polished by contact with the best the world produces.

Governor Hoke Smith of Georgia wants a higher tax on the property of the railroads. He believes that when the agents of roads swear in court that their property is worth a sum twice or three times as great as its assessed value there is something wrong. Every railroad should have its value ascertained and be taxed accordingly.

MONTHLY MEETING OF COUNTY DADS

Long And Interesting Session Of Board Of Commissioners.

THE PAY ROLL WAS HEAVY

Nearly a Thousand Dollars Expended on Roads, But Much Good Work Being Done—Several New Notaries Public Bonds Approved.

Gainesville, August 5.

The Board of County Commissioners met this day, as required by law, for the purpose of hearing and adjusting complaints of persons whose taxes had been raised by the board.

Present: John G. Dampier, chairman; W. J. Matthews, C. C. Pedrick, F. F. Paulling.

The meeting being called to order, the board then took up the complaints and made the adjustments, whereupon the board adjourned until Tuesday morning at 9 o'clock.

Tuesday, August 6.

The Board of County Commissioners met this day in regular session.

Present: John G. Dampier, chairman; W. J. Matthews, C. C. Pedrick, F. F. Paulling and J. F. Townsend.

The minutes of last meeting were read and approved without reading.

That the bond of J. T. Stokes as justice of the peace for District No. 2, with H. C. Parker and W. S. Roberts as sureties, be approved.

Whereupon the board adjourned until Wednesday morning at 9 o'clock.

Wednesday, August 7.

The board met this day, pursuant to adjournment of Tuesday.

Present: John G. Dampier, chairman; C. C. Pedrick, W. J. Matthews, F. F. Paulling and J. F. Townsend.

The meeting being called to order, the following orders were made:

That a reward of fifty dollars be paid for the arrest and conviction of Harrod Roberts, who shot and killed Carrie Irvine on July 7, 1907.

That Dr. J. B. Curtis, his heirs or assigns, be permitted to place poles for telephone along the public highways of Alachua county, at a distance of fifteen feet from the center of the road, and that if at any time it shall be necessary for the removal of such poles to other places along the public road the same are to be removed at cost of owner of same.

That C. C. Pedrick be empowered to employ Thomas Hodgson to remove stumps from right-of-way of public road leading to Prairie Creek at 5 cents per stump.

That $500 be appropriated and turned over to C. C. Pedrick for road hands for month of August.

That $225 be paid to John G. Dampier for road hands for month of August.

That $150 be paid to F. F. Paulling for road hands for month of August.

That, Whereas, A. B. Holden, E. W. Hays, L. N. Martin, B. Lillienblum, J. A. Downing, W. C. Bradshaw, H. C. Collins, G. H. Sanchez and Dave Gray, each having complied with the law, be granted a permit to carry a pistol, and G. S. Chamberlain, Jr., and F. W. Cragin, each having complied with the law, be permitted to carry a repeating rifle.

That $30 be appropriated and paid to C. L. Triggin each month until otherwise ordered.

That J. R. Emerson be paid $55 as salary for July on roads.

Whereupon the board adjourned.

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—SAM H. GWIN, Concord, Ga. For sale by all druggists.

MALARIA A SYSTEMIC BLOOD POISON

UNDERMINES THE HEALTH- LAYS THE FOUNDATION FOR DISEASE

Malaria comes from the absorption into the blood of germs and microbes which destroy the rich, nutritive qualities of the circulation and reduce it to a weak, watery, disease-spreading stream. The healthy color of the skin is given to it by the millions of little red corpuscles which are in the blood. These are the carriers of nourishment and health to all parts of the body; in other words the very life and vitalizing essence of the circulation. The destruction of these corpuscles by the malarial poison takes the color from the cheek, and in the first stages of Malaria we have pale, sallow faces, poor appetite, a bilious condition is set up, and we feel "out of sorts" generally. But Malaria means more than this; it is a systemic blood poison, which undermines the health and gives rise to innumerable and sometimes serious disorders and diseases if the poison is allowed to remain in the blood. As the blood becomes more and more polluted with the malarial poison, the digestion becomes deranged, chills and fever are frequent, skin diseases, boils and carbuncles, and sores and ulcers break out on the flesh, and after awhile the foundation is laid for other diseases which either prove fatal or permanently undermine and wreck the health. Malaria can only be worked out of the system through the blood. Purging the liver and bowels with strong, nauseating cathartics can never remove the trouble because they do not reach the blood where the germs are constantly multiplying. The only hope for a cure is a remedy that can destroy the germs and microbes, and neutralize the bad effects of the poison, and S. S. S. is the medicine to accomplish this, because it is a perfect blood purifier and a general systemic remedy of unequalled value. S. S. S. searches out and removes every trace of the malarial poison and puts the blood in such rich, healthy condition that sallow, anaemic complexions take on the ruddy glow of health, the liver and digestion are righted, the appetite improved, the system vitalized and strengthened, and every symptom of Malaria passes away. Malarial persons will find S. S. S. not only a prompt remedy but a gentle, pleasant acting one, as well as a certain cure for this disease. Besides removing the cause of Malaria S. S. S. builds up every part of the system by its fine tonic effects. Persons living in a malarial section should, at this season, fortify their systems against this insidious disease by purifying their blood with a course of S. S. S. Book on the blood and any medical advice desired sent free of charge.

HIGH SPRINGS NOTES.

High Springs, August 10.—E. K. Anderson spent several days of this week at Dunnellon.

Mr. and Mrs. Stevens of Ocala, are visiting the family of their son, H. C. Stevens.

Mr. and Mrs. S. B. Phifer have returned from Windsor, where they spent several days very pleasantly visiting friends.

H. McL. Grady is at White Springs this week.

Dr. Everard Blackshear has returned from the Jamestown Exposition.

Mrs. R. B. Bush and little son have gone to Atlanta for the remainder of the summer.

Mrs. E. K. Anderson gave a card party recently, which was a most enjoyable affair. The game played was "500," and Mrs. Anderson won the lady's prize, and Dr. Blackshear the gentleman's prize. Mrs. Anderson presented her prize to the guests present. Elegant refreshments were served.

Mrs. Resa Sails entertained the card club on Thursday evening, and it proved to be a most delightful occasion. Miss Muriel Futch won the lady's prize, and Jesse Mizelle the gentleman's prize.

Sea Island Cotton.

Savannah, Ga., August 10.—The sea island market was very quiet during the past week, only two bales reported as being sold. Exports of 271 bales made a considerable reduction in the local stock, leaving it at 483 bales. A part of this has been sold and is only awaiting shipment. The week closed with prospects of a further reduction in the unsold stock. Reports from the new crop are still favorable, except for the danger of too much rain.

BOARD PUBLIC WORKS.

Met Friday to Receive Bids for Lateral Sewerage Work.

The Board of Public Works—at least the three who are in the city—met Friday afternoon for the purpose of receiving bids for the laying of lateral sewerage connections. There were present at this meeting H. E. Taylor, E. J. Baird and J. H. Vidal.

There were only two bids. These were opened, and were so correspondingly close that the board considered it advisable to study over the matter. The meeting adjourned until Monday, when the contract will be let.

The bids were from Contractor Beeman, who installed the sewerage system, and Mr. Cardy.

Don't Boast Too Soon.

Editor Sun: We note that correspondents in different parts of the county seem to manifest a spirit of boastfulness in writing about the condition of the cotton crop in their respective locations. Now it is not our purpose in this article to criticise or to be discourteous to anyone, but it is best to be careful, for cotton buyers are on the alert all the while and are ready to avail themselves of anything that lends a bearish tone to the market, and besides it is impossible to form even a vague conjecture right at this time as to what the output will be, for it is well known to all experienced farmers that the period embraced in the first half of August is a time of "go back," or "rust blight," which of course, would put a different phase on the prospects. "Rust" is appearing even now, but on heavy land, where it is fertile, cotton is fine, but on light soil it gives promise of a short yield in this locality.

Operation on Mr. Rogers.

A surgical operation was performed upon Rev. S. B. Rogers, pastor of the First Baptist church of this city, in Atlanta Saturday afternoon, and report has it that Mr. Rogers is in a serious condition.

The preacher has been in ill health for several months, and about three months ago his congregation, to which he is very much devoted, unanimously voted to allow him six months' leave of absence, with the hope that the change would prove beneficial to him.

Mr. Rogers, with his family, has until recently been sojourning in Tallahassee and Georgia, but the minister's condition became so alarming that it was thought necessary to send him to Atlanta, where the operation was performed as stated.

Mr. Rogers is quite popular here, not only among the people of his own congregation, but by the public generally, all of whom sincerely hope for his recovery.

An Irishman's Soliloquy.

An Irishman, traveling through the hills of Virginia, so the story goes, was passing a cemetery, and thought he would go in and examine the epitaphs on the tombstones.

Coming to one imposing slab, he read this inscription:

"As you are now, so once was I;
"As I am now, soon you must be—
"Prepare for death, and follow me."

The Irishman soliloquized for a moment. "Be gorra, that fool wants me to follow him, when he does not tell which way he went."

Taking his pencil, he added the following:

"Where you are now I wish you'd tell—
"If up in heaven or down in h——;
"To follow you I won't consent
"Until I know which way you went."

SERMONETTES

BY J. MARVIN NICHOLS.

During the closing days of life, Dennis Kearney said: "The working man will get all that's coming to him when he is able to earn it, and not before. Valuable men are scarce—be scarce, and you'll get your price."

"S-U-C-C-E-S-S"—honesty and industry; that's all. However, Lawson's frenzied finance would give the definition an exactly opposite twist. Nowadays, a definition in morals depends altogether on the fellow you are monkeying with. See?

A Creek squaw plunked a white man the other day good and hard. As yet, nothing has been said about "brain storm," or "the unwritten law." However, the only difference is that the Creek squaw stands in physical contrast with the Florodora dream-girl.

Some people have no heaven unless it offers telephone connection with some ass whose creed like parrots they repeat and whose moral code is their law and gospel. For God's sake work your own thinker and be willing to stake destiny on your own judgment.

Bill Barlow, my Wyoming editorial friend, hits my idea of success exactly when he says that to the wise man, success is the golden mead of happiness and content—conscious integrity—decency—toil without miserly abatement, and a life of something more than board and clothes.

How strange that standard I saw the other day printed in a journal of national circulation: "If it were only the other fellow's sweetheart, or wife, it might be permissable if shrouded in proper privacy; but your own, such conduct would be absolutely unpardonable. Best to forswear the wink, ladies—don't—you might be misunderstood."

David Grayson, in his "Adventures of Contentment," declares that happiness must be tricked. She loves to see men at work. She loves sweat, weariness, self-sacrifice. She will be found not in palaces but lurking in corn fields and factories and hovering over littered desks: she crowns the unconscious head of the busy child. If you look up suddenly from hard work you will see her; but if you look too long she fades sorrowfully away."

From Sunny California a magazine has found its way to my desk. I wish I knew the editor, for "The Little Devil" declares that to be dead is not merely to still a heaving bosom. To be dead is to be down and out of the game—to lose the grip, to break the cue. "Legion" is the name of those whose habiliments are frocks instead of wings, only because the dead-wagon had been busy with hurry calls elsewhere. Pinch yourself and see if you are dead.

Remedy for Diarrhoea—Never Known to Fail.

"I want to say a few words for Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used this preparation in my family for the past five years and have recommended it to a number of people in York county and have never known it to fail to effect a cure in any instance. I feel that I cannot say too much for the best remedy of the kind in the world."—S. JEMISON, Spring Grove, New York County, Pa. This remedy is for sale by all druggists.

The couple quarreled on a back porch, and ... into the dining room. ... two shots into his wife's ... Her body fell dead ... carried it to a bed room ... placed it on a bed. Standing over the body of the woman Wheeler cut his throat, the knife with which he severed his jugular vein dropping on the cheek of his wife. Wheeler fell to the floor and expired instantly.

The Wheeler ... came here a year ago from Hagerstown, Md. Wheeler had been working on the Bluefield and Clinch railroad, with which company he was employed as a brakeman.

Don't Be Blue

And lose all interest when help is within reach. Herbine will make that liver perform its duties properly. J. B. Vaughn, Elba, Ala., writes: "Being a constant sufferer from constipation and a disordered liver, I have found Herbine to be the best medicine, for these troubles, on the market. I have used it constantly. I believe it to be the best medicine of its kind, and I wish all sufferers from these troubles to know the good Herbine has done me." Sold by W. M. Johnson.

Alleged Rebels Arrested.

Havana, Aug. 10.—Saguerro, alleged chief of a band of revolutionists in San Luis, Santiago province, has been arrested. He is alleged to have been concealed in a house in Santiago county. Of all the bands reported lately, his probably is the only one which really existed, and even this never consisted of more than six men. When it was disbanded, Saguero sought refuge in the city with three others, who were also arrested.

Children in Pain

Never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Sold by W. M. Johnson.

Toadstools Poison Eight Persons.

Wheeling, W. Va., Aug. 10—Dr. C. P. Dinsmore died and four other persons may die from eating toadstools for mushrooms at Deep Valley, W. Va. Dr. Dinsmore gathered what he thought were mushrooms on Sunday and the family partook heartily of them. They became sick shortly afterwards, the doctor dying.

Attention is called to the advertisement of J. Manasse which appears in this issue. Mr. Manasse is offering $2[illegible] worth of clothing, dry goods, hats, shoes, gentlemen's furnishings, skirts, etc., at a greatly reduced price, and those desiring anything in this line would do well to read the ad and note the prices. The big sale will open on August 14 and close August 27.

While complaints from various citizens are in order several have been registered against the stretch mud hole in front of The Dutton Bank on West Liberty street, which has proved obnoxious ever since the rains set in. A ton of rock would fill in this depression in a manner that it would last for some time, and it is for the public that it be done as water is constantly standing there, breeding mosquitoes and possible disease.
